

OEM parts supplier

Lewis & Raby is an Original Equipment Manufacturer (OEM) supplier for a wide range of engineering and manufacturing companies as well as commercial and industrial partners.

We offer CNC machining, welding, finishing processes and assembly for everything from bespoke one-offs to larger quantities for batch production work. We can also assist with advice on OEM part design and manufacture.

OEM parts can be generated from existing drawings or customers' sample parts. All our parts are fully inspected prior to delivery in accordance with Lewis & Raby's certification to the ISO 9001 quality standard.

We also understand that quick supply of parts is critical to the supply chain which is why Lewis & Raby is committed to meeting our customers most urgent deadlines.

Please contact our experienced engineering team to discuss your OEM part requirements by emailing enquiries@lewisandraby.co.uk or calling us on 0151 546 2882.
